

# 8.8 million words in 4 days

## TRANSLATION IN THE FAST LANE

### MACHINE TRANSLATION

In the right hands, MT is an excellent resource.

### THE TASK

Our client needed a massive amount of German content translated into US English in a very short space of time.

### THE SOLUTION

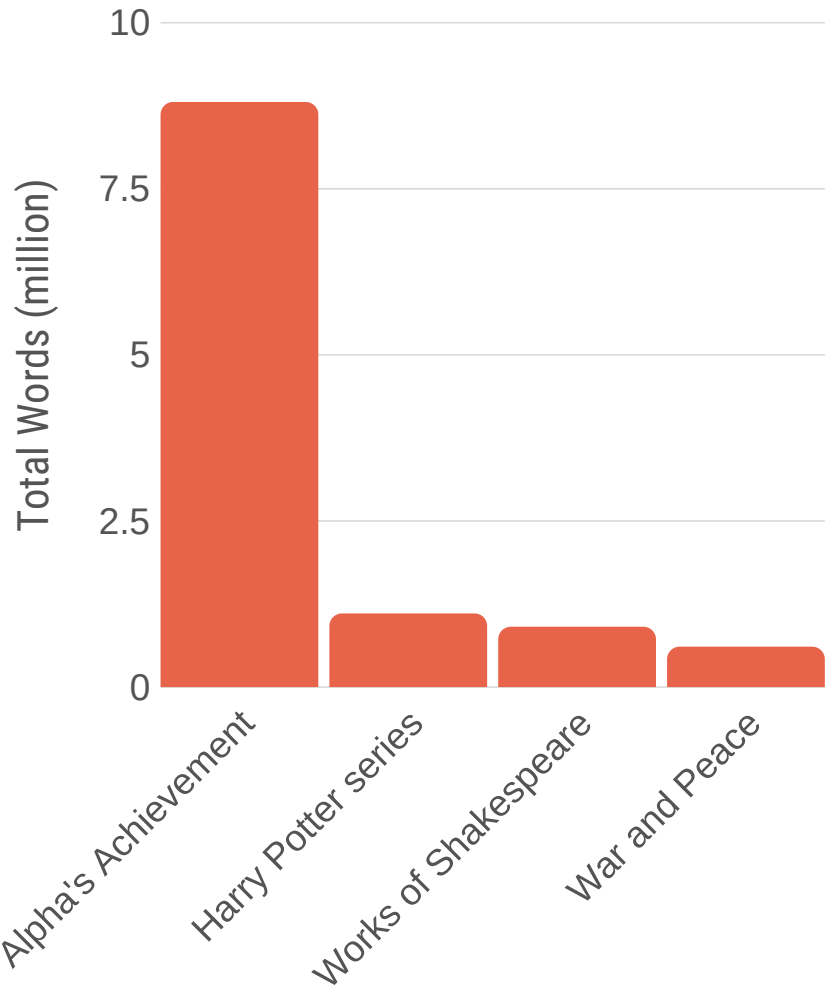

An automated workflow based on a carefully selected MT engine and a customized Content Connector

### THE RESULTS

Alpha managed to machine translate 8.8 million words in four days and deliver to the client right on time.

"We thought the quality was excellent." they said.

Some Perspective: How this monster project compares to great literary works

8.8 million words isn't *that* much, right? Think again!

The workflow we devised for ultimate efficiency:
